SPX Process Equipment Introduces the S-Series Economical Sanitary Stainless Steel Portable and Fixed Mount Mixers

Delavan, WI – June 23, 2009 – The New S-Series Portable and Fixed Mount Mixers satisfy a wide range of mixing and mounting requirements utilizing a distinctive modular assembly design. Multiple mounting configurations include clamp style, open tank or sealed designs for maximum flexibility. Unique to the industry, this mixer can be quickly converted from one mounting arrangement to another in as little as two minutes. The S-Series Mixer is designed for a wide range of applications including: Pharmaceutical, Personal Care, Beverage, Dairy, and Prepared Foods.

Modular Design Features Include:

- Economical
- 3A authorized
- CE compliant
- Simple, compact, sanitary, stainless steel design.
- Direct drive and gear options for this global use mixer provides full range of shaft speeds.
- Multiple impeller options available.
- Easy to use selection table for general blending.
- Welded construction
- Global-ready
